To Mr. the Doctor
J. A. Pidgeon
Coroner, Percé.

Dear Sir

Last night on about
5:45 o'clock, your son and
Mr. George Brandin, asked
me to give them for you
the same bottle on the
subject of which the
enquest was made
home to day. They had
no orders from you,
but I gave them the
same bottle but I kept
more than the $\frac{3}{4}$ of
the content of it.

They told me it was

you, that wanted it to
get it reference, or analysis
of it. But this is a
poison, and I will be
quite about it only
when you will told
me that it is all right.

Prudence force me
to write that to you
because if it was not
from your order that
they got it, accident
may occur, and I would
be responsible

oblidge me dear
sir by a word about
that matter

Yours
Dr J M S. W. S. W.
